Sustainability
Policy

Trafigura Sustainability Policy

This policy sets out our sustainability approach that guides how we run our business and should be read alongside Trafigura's Code of Business Conduct and other corporate policies.

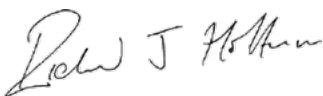

We seek to:

1. Take appropriate measures to protect the health, safety and security of employees, contractors, and local communities, and to safeguard assets and commercial interests against physical and operational risks.
2. Respect internationally recognised human rights and labour rights. Our approach is informed by the UN Guiding Principles on Business and Human Rights.
3. Prevent or mitigate pollution and biodiversity loss, reduce greenhouse gas emissions, use resources efficiently, and minimise and appropriately handle waste.
4. Act as a respectful neighbour, engaging and supporting communities, including indigenous peoples, affected by our activities as appropriate.
5. Comply with applicable laws and regulations in the jurisdictions in which we operate.
6. Apply risk-based due diligence to relevant contractors, counterparties and investments.
7. Operate management systems designed to manage compliance, risk and monitor performance.
8. Work with relevant customers to support their own sustainability goals, where commercially viable.
9. Build a culture that promotes responsible leadership and empowers our people to speak up.

Scope and applicability:

This policy applies to Trafigura's business divisions and owned and controlled operations and companies. Where applicable, we seek to promote similar standards across our non-operated joint ventures and with relevant counterparties.

This policy is supported by our Sustainability Framework, Management Systems and relevant internal standards and procedures, and is evaluated periodically.

Richard Holtum
